## **PATTERN ON THE FABRIC AND QUANTITY OF REQUIRED CLOTH**

There are 2 possible cases, depending on whether you are using the TittiCad Program (installed on your PC), or the Online Pattern Making Service (present on the website [www.titticad.com](http://www.titticad.com)):

- TittiCad program: By opening the PRINT page and selecting the **Arrangement on fabric** item from the "List of Available Prints",

a suggestion is displayed on how to position the model on the fabric.

- [Online Patterns of www.titticad.com](http://www.titticad.com): After entering the measurements and requesting the Free Preview, it is shown at the bottom of the page **Arrangement on fabric and required fabric length.**

The vertical arrow indicates the quantity of fabric required, while the horizontal arrow indicates the width of the fabric, it can be double fabric (when 75cm is indicated) or single fabric (when 150cm is indicated).

It is recommended to always take a little more (10-15 cm)
